SUMMARY

A recent graduate with a Bachelor's degree in Computer Networks, driven by a strong passion for programming and web development. Possess foundational programming skills in Python, JavaScript, CSS, PHP, and SQL database management at a junior level. Can used jQuery, Bootstrap, and Laravel framework. Recognized for being a fast learner, highly adaptable, and an effective team player. Eager to apply both technical and interpersonal skills in a dynamic IT internship environment. Committed to gaining practical experience that will sharpen my technical expertise and support my long-term career growth in the software development and IT industry.

WORK EXPERIENCE

Global Technology Group | Core Network Team Intern   **April 2024 - May 2024**
- Gained practical understanding of organizational IT infrastructure and internal networking operations.
- Assisted in configuring and handling networking devices such as routers, switches, and modems.
- Learned and applied standard procedures for documenting network configurations and changes.

New Sony Electric Store (Lashio) | Inventory Management   **December 2021- March 2022**
- Oversight of store inventory and stock levels, ensuring optimal levels for operational efficiency.
- Regular creation and maintenance of detailed daily reports, securely stored in digital format for easy access and reference.
- Facilitation of reports documenting price changes received from suppliers, supporting informed decision-making and cost management strategies.

EDUCATION

Bachelor of Science (BSc) in Computer Networks   **2024 - 2025**
Liverpool John Moores University (LJMU)

Higher Diploma in Infrastructure and Networks   **2023 - 2024**
Auston Institute of Management

Wallstreet English (level-13)   **2022 - 2023**

Enhanced Foundation Program in Auston   **Completed in 2022**

ADDITIONAL INFORMATION

LANGUAGE

- Burmese (Native)
- English (Intermediate C1)

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, PHP, HTML, CSS, SQL
- Solid understanding of hardware components, configuration, and troubleshooting
- Proficient in Microsoft Word, PowerPoint, and Excel for documentation and reporting
- Familiar with Git version control, Bootstrap framework, Laravel framework, and jQuery

CERTIFICATE

- Meta Frontend Development (2025)
- Google Cybersecurity Professional Certificate (2024)
- Python Programming (Coursera 2024)
- MikroTik Certified Network Associate (2023)

SOFT SKILL

- Team Work
- Adaptability
- Active Listening
- Problem-Solving
- Open-minded
- Fast Learner

Dear hiring manager,

I am writing to express my interest in the Software Developer (Intern) position at your organization. I am a recent graduate with a Bachelor's degree in Computer Networks and a strong passion for software and web development. Currently based in Bangkok, Thailand, I would be grateful if you would consider me for a remote internship opportunity, should one be available.

During my academic journey and through various personal projects, I have gained hands-on experience in PHP, JavaScript, Python, and SQL, along with a solid understanding of how web applications function. For front-end development, I am proficient with HTML, CSS, Bootstrap, and jQuery, and I have a foundational knowledge of the Laravel framework. I am also comfortable using Git for version control and have a basic understanding of web deployment processes.

For my final year project, I worked on "Network Anomaly Detection Using Deep Learning Models," which allowed me to deepen my knowledge of TensorFlow and Keras. This experience gave me exposure to real-world machine learning applications.

I am a fast learner, adaptable, and committed to continuous improvement. I am eager to contribute to real-world projects, collaborate with experienced developers, and grow in a structured development environment. I am confident that my technical foundation, eagerness to learn, and dedication will allow me to make a positive contribution to your team.

Thank you for considering my application. I look forward to the possibility of discussing how I can support your team in greater detail.

Sincerely,

Naing
